👉🏽 💥 Barts resources

TIMETABLE

▼ DAY 0,5 (@September 14, 2026) Preparation

- Download the Arduino IDE https://www.arduino.cc/en/software/
- Download the latest version of Blender https://www.blender.org/download/
- read “ ” (see “Bart’s class info”)
- Bring your Arduino and bits and bobs if you have them

▼ DAY 01 (@September 15, 2026) : Arduino

Assignment (Welcome To My Mojo Dojo Casa House)

1. Design & build an Arduino Microcontroller.
2. Design & build a Blender house (room-by-room).
3. Use the microcontroller to animate the house in any way you see fit.

Learning Goals:

→ Get started with Arduino programming
→ Learn about Arduino logic
→ Basics of Open Sound Control (OSC)
→ Basics of 3D modelling & Blender interface
→ Drawing in 3D
→ Learning 3D environment & asset development workflow
→ Connecting Arduino to 3D software
→ Have fun!

Assignment Requirements:

→ Must involve Arduino/Microcontrollers
→ Must involve Blender
→ Must connect Arduino to Blender in some form
→ Work collaboratively in a group
→ Stick to the Geneva Conventions (we needed this from last time...)
→ Update personal Notion pages with developments

Spoiled for Choice!

1. Kitchen: Heather & Heewon
2. Bathroom: Daniel & Lisa
3. Bedroom: Yerim & Joyce
4. Living Room:
5. Dining Room:
6. Attic: Pepijn & Gil
7. Garden: Lynn & Sonia
8. Garage: Peter & Denzel
9. Basement: Leonor & Júlia

▼ DAY 02 (@September 17, 2026) : Arduino

▼ DAY 03 (@September 18, 2026) : Arduino

→ Play and build

▼ DAY 04 (@September 21, 2026) : Blender

- [ ] Download Blender v5.2: https://www.blender.org/download/

- [ ] Download Blender Floorplan:

  Floorplan.blend

MORNING

→ Lecture: Assignment pt.2 & Introduction to 3D

AFTERNOON

→ Walkthrough: Blender interface guide

→ Playtime: Blockout & hero asset

▼ DAY 05 (@September 15, 2026) : Blender

- [ ] Download Multi-User Blender-Extension *(PolyMeshSync)*:

  polymesh_sync.zip

MORNING

→ Walkthrough: Lighting & Cameras & GreasePencil

→ Playtime: Continue blockout & hero asset(s)

AFTERNOON

→ Walkthrough: Blender multi-user editing

→ Playtime: Continue blockout & hero asset(s)

▼ DAY 06 (@September 17, 2026) : Self study at the lab

→ Playtime (without Zak)

▼ DAY 07 (@September 18, 2026) : Blender

MORNING

→ Walkthrough: Rendering & Exporting & Texturing & UVs

→ Playtime: Collaborative 3D editing

AFTERNOON

→ Playtime: Finalizing rooms & exporting

→ Deadline: Placing all the rooms together

▼ DAY 08 (@September 28, 2026) : Arduino & Blender

- [ ] Download OSC Blender-Extension *(OneZeroOne)*:

  OneZeroOne-1.0.0.zip

MORNING

→ Lecture: Introduction to networked systems

→ Walkthrough: Connecting MicroControllers to Blender

AFTERNOON

→ Playtime: Animating via microcontrollers

▼ DAY 09 (@September 29, 2026) : Arduino & Blender

MORNING

→ Playtime: Animating via microcontrollers

AFTERNOON

→ Deadline: Animated house!
